📍 Petah Tikva. IL

## SUMMARY

I am on my way to becoming a professional game developer. I have big dreams and a true passion for the gaming industry, especially for VR and AR technologies, one of my goals at first is to be able to work for an inspiring and interesting company that will assist me in develop, improve, and acquire the skills necessary to become the best game programmer I can be.

## EXPERIENCE & PROJECTS

### Development

#### Independent and academic projects

📅 2016 - Ongoing 📍 Petah Tikva. IL

- I did various development projects in high school, college, and independent (Web development, Application development, and game development), learned complex coding in both academic and independent studies. (C#,Unity,HTML5, Angular)

### Projects

- I built simple games in JS like snake and flappy bird, and more complex games with unity(mainly FPS, RPG)

## MILITARY EXPERIENCE

### Israel Defense Forces

#### IDF

First-year intelligence fighter, **security classification**-level 3.  
The rest of the service I was a network manager at the ICT Department-maintaining networks and addressing various faults at the base.

## LANGUAGES

Hebrew
